MENU

buon appetito

KASTO was born on open road, where four Italian friends embarked on a 7,000km journey from Sydney to Margaret River, surrounded by breathtaking scenery and the thrill of adventure.

With surfboards in tow, they chased waves and a dream: to inspire others to embrace a more plant-based lifestyle.

As Italians, they knew that delicious pasta and pizza could be the key to making this vision a reality.

KASTO was born.  
A vegan restaurant in Bali that would redefine the culinary scene.

At KASTO we believe there is nothing better than sharing!  
To live the ultimate food experience we recommend sharing a few dishes in true Italian family style

WE make everything in our kitchen from our Pizzas to our meatballs.  
Pasta is handmade from scratch daily.

Kasto is a restaurant with a purpose:  
Serving our people ethically sourced and plant-based food, made with local ingredients of the highest quality.

We care about what you eat.

Enjoy our soul-food, in the name of a better, smarter, more sustainable world.
